

VARUN S

Data Analyst & Data Engineer | Business Analytics | SQL | Power BI | Azure | AI-Powered Analytics | Available Immediately
Bangalore, India | 8903070652 | varunaadithiya@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE SUMMARY

- MBA (Business Analytics) Data Analyst and aspiring Data Engineer with end-to-end project experience spanning data analytics, business intelligence, cloud data engineering, statistical analysis, and AI-powered analytics application development.
- Proficient in SQL, Power BI (DAX, Data Modeling, Power Query), Advanced Excel, Looker Studio, and SPSS; experienced in designing scalable dashboards, KPI-driven reports, ETL pipelines, and data visualizations that support data-driven decision-making.
- Hands-on experience with cloud data engineering tools including Azure Data Factory, Azure Databricks, Azure Synapse Analytics, and Azure SQL Database — building automated data pipelines and end-to-end analytical platforms.
- Strong foundation in statistical analysis including descriptive statistics, Pearson correlation, regression analysis, hypothesis testing, and reliability analysis, applied in MBA research and analytical projects.

CORE COMPETENCIES

- Data Analysis & Business Intelligence • Dashboard & Report Development (Power BI, Looker Studio, Tableau) • SQL & Database Management
- ETL Pipeline Development • Cloud Data Engineering (Azure) • Statistical Analysis & Hypothesis Testing • Data Cleaning & Transformation
- KPI Monitoring & Performance Analytics • Requirement Gathering & Documentation • Stakeholder Management • Data Quality & Integrity
- AI-Powered Analytics • Machine Learning for Business • Predictive Analytics • Business Process Analysis • Data-Driven Decision Making

TECHNICAL SKILLS

- BI & Visualization: Power BI (DAX, Data Modeling, Power Query), Looker Studio, Tableau, Advanced Excel (Pivot Tables, VLOOKUP, Data Modeling)
- Languages & Analytics: SQL (Joins, CTEs, Window Functions, Subqueries, Aggregations), Python (Pandas, NumPy — practice level), R (foundational), SPSS
- Cloud & Data Engineering: Azure Data Factory, Azure Databricks, Azure Synapse Analytics, Azure SQL Database, Azure Key Vault, Dataflows, ETL Pipelines
- Statistical Methods: Descriptive Statistics, Pearson Correlation, Multiple Regression, Hypothesis Testing, Reliability Analysis, ROI Analysis
- AI & Emerging Tech: Generative AI (IBM certified), Machine Learning for Business, AI-powered application development, ChatGPT & Gemini for research & analysis
- Certifications: AI for Business (Jain), ML for Business (Jain), Generative AI with Python (IBM), Financial Accounting (UVA Darden), Basic Statistics (UoA)

PROJECTS

ForgeInsight — AI-Powered Data Analytics Workspace

Live Application ↗ [varun642002.github.io](#)

Tech Stack: AI / Python / Web Application

- Designed and deployed a full-stack AI-powered analytics workspace enabling users to upload datasets, perform exploratory data analysis, generate AI-driven insights, and interact with analytical workflows through a modern web-based interface.

Retail Sales & Inventory Analytics Platform

Tech Stack: SQL, Azure Data Factory, Azure SQL Database, Power BI (DAX, Power Query)

- Built an enterprise-scale end-to-end analytics platform automating 3 ETL pipelines to ingest and process 100,000+ sales and inventory records, with Power BI dashboards tracking 8 revenue, product performance, and stock KPIs.

E-Commerce Customer & Sales Analytics

Tech Stack: SQL, Power BI

- Conducted multi-table e-commerce analysis across orders, payments, products, customers, sellers, and order items to identify revenue patterns, customer behavior, seller performance, and operational optimization opportunities.

HR Analytics Dashboard

Tech Stack: Looker Studio

- Developed an interactive workforce analytics dashboard tracking employee attrition, demographics, job roles, compensation, satisfaction scores, and organizational trends to support HR decision-making.

Banking & Financial Transaction Analysis System

Tech Stack: SQL, Excel, Power BI

- Analyzed 75,000+ financial transactions using 20+ advanced SQL queries (joins, window functions, subqueries) for fraud detection and customer segmentation, with Power BI reports across 5 performance dimensions.

INTERNSHIP EXPERIENCE

Aruna Agencies — Business Analytics Intern	<i>Namakkal May 2025 – Nov 2025</i>
- Conducted in-depth data analysis on 50,000+ rows of sales and operational data using SQL, Advanced Excel, Power BI, and SPSS — identifying key patterns, anomalies, profitability trends, and business performance opportunities. - Performed customer research involving ~150 farmers to analyze satisfaction trends, and conducted competitor analysis across 13 outlets to evaluate market positioning and identify business development opportunities. - Prepared 10+ structured analytical reports and dashboards for senior stakeholders, translating complex datasets into actionable business insights that directly informed operational and strategic decisions. - Documented business requirements, SOPs, and process improvement recommendations, reducing manual reporting effort by ~40% through automated Power BI refresh and standardized data pipelines.	

MBA THESIS — RESEARCH PROJECT

Impact of Agricultural Machinery Adoption on Crop Returns	<i>2026</i>
<i>Economic Analysis Using ROI Framework CMS Business School, Jain University</i>	
Conducted an empirical study on 166 farming households applying descriptive statistics, Pearson correlation, multiple regression, reliability analysis (Cronbach's Alpha: 0.7789), and hypothesis testing — finding 84.94% reported positive ROI impact and 83% reported yield improvements following machinery adoption.	

LEADERSHIP & ACHIEVEMENTS

- SAE Student of the Year (2024) — Recognized for technical contribution, leadership, and active participation in SAE engineering initiatives. - Team Manager, SAE SUPRA (2023) — Led a 30-member Formula Student team to 2nd place among ~80 teams nationally, demonstrating project coordination, technical leadership, and competitive engineering excellence. - Vice Captain, FMAE Formula Student (2023) — Contributed to a national 3rd-place finish including 1st place in design and acceleration events. - Group Captain, Electric Vehicle Project (2022) — Led a team to 1st place overall among 25 competing teams in EV project development.	
--	--

EDUCATION

Master of Business Administration (MBA) — Business Analytics	<i>2024 – 2026</i>
<i>Jain (Deemed-to-be University), CMS Business School, Bangalore CGPA: 7.1/10</i>	
Bachelor of Engineering — Automobile Engineering	<i>2021 – 2024</i>
<i>Bannari Amman Institute of Technology, Sathyamangalam CGPA: 7.4/10</i>
