

VARUN S

Aspiring Data Analyst | MBA in Business Analytics | SQL | Power BI | Excel | Python | Available Immediately
Bangalore, India | 8903070652 | varunaadithiya@gmail.com | [Linkedin](#) | [GitHub](#)

PROFILE SUMMARY

- MBA (Business Analytics) professional pursuing a Data Analyst role, with hands-on internship experience in data analysis, SQL, Power BI, and Advanced Excel, focused on collecting, cleaning, and transforming raw data into actionable insights and trends.
- Proven ability to build interactive dashboards, monitor KPIs, and prepare analytical reports that support data-driven decision-making across sales, operations, finance, and other business teams.
- Working knowledge of Python (pandas, NumPy) for data analysis, with exposure to Tableau for visualization in addition to core SQL and Power BI expertise.
- Strong analytical and communication skills, with a track record of gathering stakeholder requirements, ensuring data integrity and quality, and translating findings into structured, decision-ready reports.

CORE COMPETENCIES

- Data Collection, Cleaning & Transformation (ETL) • SQL & Database Management • Dashboard Development (Power BI / Tableau)
- KPI & Performance Monitoring • Requirement Gathering & Documentation • Business Intelligence & Insights Generation • Data Integrity & Quality Assurance • Stakeholder Communication

IT SKILLS

- Programming Languages: Python, SQL
- Databases: MySQL, Azure SQL Database
- Data Analytics & Visualization: Power BI, Tableau (working knowledge), Advanced Excel
- Cloud & Data Engineering (exposure): Azure Data Factory, Microsoft Fabric, Databricks, Azure Synapse Analytics

INTERSHIP EXPERIENCE

Aruna Agencies — Business Analytics Intern

Namakkal | May 2025 – Nov 2025

- Collaborated with 5+ business stakeholders to gather and document requirements, translating findings into 10+ structured analytical reports and business recommendations that directly informed operational decisions.
- Conducted data analysis on 50,000+ rows of sales and operational data using SQL and Advanced Excel, identifying 3 key profitability trends and ROI gaps while maintaining data integrity and quality throughout the analysis process.
- Designed and deployed 4 interactive Power BI dashboards tracking 10+ KPIs across sales and operations, reducing manual reporting effort by ~40% through automated data refresh and transformation pipelines.

PROJECTS

Retail Sales & Inventory Analytics Platform

Tech Stack: SQL, Azure Data Factory, Azure SQL Database, Excel, Power BI

- Built an end-to-end cloud-based retail analytics platform, automating 3 ETL pipelines for ingestion of 100,000+ sales and inventory records, with Power BI dashboards tracking 8 revenue and stock KPIs.

Banking & Financial Transaction Analysis System

Tech Stack: SQL, Azure Data Factory, Azure SQL Database, Excel, Power BI

- Developed a banking analytics system in MySQL analyzing 75,000+ financial transactions using 20+ advanced SQL queries (joins, window functions, subqueries) for fraud detection and customer segmentation, with Power BI reports covering 5 performance dimensions.

EDUCATION

Master of Business Administration (MBA) — Business Analytics

2024 – Present

CMS Business School, Bangalore | CGPA: 7.1/10

Bachelor of Engineering

2021 – 2024

Bannari Amman Institute of Technology, Sathyamangalam | CGPA: 7.4/10

OTHER WORK EXPERIENCE

- Ponnar Sankar Tractor — Junior Design Engineer, Namakkal (May 2020 – May 2021): Assisted in designing tractor and automotive components using AutoCAD, CATIA, and SolidWorks, building technical documentation and cross-functional collaboration skills.
